

Brookview Outdoor Recreation Park: Transforming Our Community Space

Join us in an exciting journey to revitalize the Brookview Outdoor Rink into the **Brookview Outdoor Recreation Park**. The outdoor rink at Brookview has been a cherished landmark in our community since 1991. With your support, we aim to create a dynamic, multifunctional facility that serves as a year-round hub for recreation and social interaction. Imagine a vibrant space where families and friends gather for sports, events, and community bonding. Our immediate goal is to complete Phase One and Two in 2025.

Phase One: Rink Replacement

The first phase involves constructing a large concrete base rink suitable for ice hockey and family skating, complete with weather-resistant dasher boards and perimeter fencing. This new rink will also feature pickleball and basketball courts, as well as a multiuse area for activities such as badminton, lacrosse, ball hockey, and will accommodate other social events during the warmer months.

Additionally, plans include an enhanced skating-only area outside of the rink. We will install an energy-efficient LED lighting system to improve visibility and safety, and address drainage issues to ensure the stability and longevity of the rink.

Phase Two: Gathering Space Development

The second phase focuses on creating a larger, accessible outdoor gathering area for recreational activities and social events. This will include comfortable seating areas and shelters and shaded areas for relaxation and community bonding. Pathways will be developed and the area will be enhanced with functional and aesthetic landscaping and recreational features. Furthermore, a designated staging area will be included for community events and activities, providing a versatile space that meets the diverse needs of our residents.

Phase Three: Adding the Roof

The third phase involves adding a roof over the rink, significantly enhancing its usability throughout the year. In winter, the roof will reduce sun exposure and minimize ice melt, ensuring a consistently high-quality ice surface for skating and hockey. During the summer months, the roof will provide shade, making the rink an ideal venue for various sports like pickleball, basketball, and badminton, protecting players from sun and rain. Overall, a roof will extend the rink's usability, protect it from weather-related wear and tear, and create a more comfortable and versatile space for community activities year-round.

Support the Brookview Community

We are inviting families in the surrounding community to help show their support for Brookview and Southwest Edmonton. Your sponsorship is vital to making this vision a reality. Together, we can enhance our community's recreational facilities, foster connections, and create a lasting impact. Be a part of this transformative project and help us build a brighter future for Brookview!

Family Sponsorship Levels

Diamond Family Donor: \$3,000

- Large listing on special Diamond section of the donor wall
- Family name in newsletters and on the BCL website
- Invitation to participate the park opening ceremony

Gold Family Donor: \$2,000

- Medium listing on a Gold section of the donor wall
- Recognition in newsletters and on the BCL website
- Invitation to participate in the park opening ceremony

Silver Family Donor: \$1,000

- Name on the Silver section of donor wall
- Family name in newsletters and on the BCL website
- Invitation to the park opening ceremony

Bronze Family Donor: \$500

- Name on the donor wall
- Family name in newsletters and on the BCL website
- Invitation to the park opening ceremony

Community Supporter: \$250

- Name listed in a special section on the donor wall
